

Chart of the Day CrowdStrike hit all time highs! \$CRWD

June 17, 2025

Scott from StockMarketMentor.com highlighted CrowdStrike (Ticker: CRWD) as a standout performer in the current market environment. While major indexes like the S&P 500 and QQQ closed below their 8-day EMAs, CrowdStrike bucked the trend by closing at a new all-time high. The stock remains in a strong uptrend, trading above all key moving averages, and is showing notable relative strength despite broader market volatility and geopolitical concerns.

Scott emphasized that the investor behavior around CRWD reflects confidence, with no signs of selling pressure. He recommended watching for a continuation to the upside and suggested setting an alert at around 492.70 to catch a potential breakout.

Next Steps:

1. Traders to monitor CRWD for a breakout above 492.70, signaling continued momentum.
2. Consider setting alerts at or just above 492.70 to be ready for new all-time highs.
3. Evaluate potential entry if the breakout is confirmed with strong volume.
4. Compare CRWD's performance to broader indexes for continued relative strength.
5. Watch for market conditions that could affect sentiment, but prioritize stocks holding above key moving averages.
6. Review other trade ideas discussed at StockMarketMentor.com for additional high-conviction setups.

0:19: It is strong.

0:20: It's in an up trend, above all the key moving averages, and closed at a new all-time high today, on a day where the S&P closed under the eight day exponential moving average on a day when the QQQ closed under the eight-day exponential moving average, crowd strike closed near the highs and is within striking distance, for lack of a better term, of hitting a new high potentially tomorrow.
