

Chart of the Day

Here's my take on the quantum computing stocks like \$IONQ and \$RGTI

October 13, 2025

Dan conducted a training session for Stock Market Mentor that was attended by both members and non-members, with recordings available for those who missed it. The session covered various stock performances, including IonQ's significant price increase and institutional buying activity, as well as discussions about risk-to-reward ratios and trading opportunities. Dan encouraged listeners to join their community with a current \$7 trial offer, noting plans to increase the membership price later in the year.

Next Steps:

1. Karen to send recordings of Monday's training session to those who email her at karen@stockmarketmentor.com
2. Dan to raise membership prices for new members to \$200 before the end of the year

Transcript:

1

00:00:02.070 --> 00:00:10.299

Dan Fitzpatrick: Okay, hey guys, Dan here, and I want to look at a couple of quantum computing stocks, but first of all.

2

00:00:10.300 --> 00:00:34.920

Dan Fitzpatrick: I want to thank or congratulate, whatever, a bunch of you that are not Stock Market Mentor members for coming to today's Monday training session. I always have a training session with people on Monday, and I got a lot of positive feedback on that, and actually several of you decided that maybe you wanted to drop 7 bucks after

3

00:00:34.920 --> 00:00:35.690

Dan Fitzpatrick: After all.

4

00:00:35.690 --> 00:00:52.540

Dan Fitzpatrick: for a 2-day free look. Now that was... it was kind of by invitation only, and what I mean by that is, I had said on Friday, if you want to do that, you're not going to get an email, you need to email karen at stockmarketmentor.com.

5

00:00:52.540 --> 00:01:05.750

Dan Fitzpatrick: And so, I'll say... I'll just extend it one more time. Like, if you weren't able to come, or you didn't listen, you didn't watch Friday, I actually don't expect you to watch every single thing I do.

6

00:01:05.760 --> 00:01:28.439

Dan Fitzpatrick: But if you missed that, you can email her. Again, it's karen at stockmarketmentor.com. Email her and just ask her to, to send you a recording of the session. It was pretty good. It was an hour and a half long, about 90 minutes or so. I covered a lot of ground, and we went over our active trade list, which, frankly,

7

00:01:28.440 --> 00:01:29.600

Dan Fitzpatrick: is the bomb.

8

00:01:29.600 --> 00:01:53.770

Dan Fitzpatrick: And it keeps... it's the gift that keeps on giving, even when the market is kind of crappy like it was yesterday. It's actually given us a good opportunity to buy some stuff. So, anyway, definitely check that out. Again, just email her at karen at stockmarketmentor.com, and that's how you get... how you can get a recording of that. And that includes if you've already been a trial member, but forever...

9

00:01:53.770 --> 00:02:09.280

Dan Fitzpatrick: for whatever reason, you decided it wasn't for you, I still invite you to get that training session, and you know what? Maybe it changed your mind, okay? So, I'm gonna go ahead and get started. We're gonna look at some charts here.

10

00:02:09.320 --> 00:02:12.320

Dan Fitzpatrick: Which means, you're not gonna be looking at me.

11

00:02:12.530 --> 00:02:21.569

Dan Fitzpatrick: Which is a good thing. So, I want to look at IonQ. Now, this stock is... we've had this on the list.

12

00:02:21.790 --> 00:02:41.669

Dan Fitzpatrick: And you can see where, this has been a really, really good situation. Buying this a little bit late and had to put in a pretty tight stop, but the stock's been working all the way up. Now, that was that trade, this is now. This is what I want to... this is what I want to look at, though.

13

00:02:41.770 --> 00:02:48.599

Dan Fitzpatrick: So, you can see how Big move higher, and by the way, check out the volume.

14

00:02:49.490 --> 00:03:13.359

Dan Fitzpatrick: It's just a massive bunch of volume here. This is all institutional buying, just massive volume. Notice how it had been trending when, during this sideways trend, nobody really seemed to care too much about the stock relative to what's going on now. So we've got a lot of activity here, and this is more than just Billy, Bob, Jethro, and Austin, buying their stocks here.

15

00:03:13.360 --> 00:03:16.120

Dan Fitzpatrick: This is big institutional buying.

16

00:03:16.120 --> 00:03:27.669

Dan Fitzpatrick: And they just seemed to kind of keep on buying. It'd been in a sideways drift for a long time, and then if you look at the weekly chart, you can actually see how this trade...

17

00:03:27.700 --> 00:03:30.279

Dan Fitzpatrick: I might be stretching it a little bit.

18

00:03:30.760 --> 00:03:32.389

Dan Fitzpatrick: But only a little bit.

19

00:03:32.530 --> 00:03:47.889

Dan Fitzpatrick: it's kind of come out of a squeeze. And when you see this on a weekly chart, when you see a stock popping out of a squeeze like this on heavy volume, like we have here, this is a stock that can continue to run. So...

20

00:03:48.980 --> 00:03:56.099

Dan Fitzpatrick: Here's the thing, I'm gonna give you a price target of 100 bucks, and, you should laugh.

21

00:03:56.350 --> 00:04:01.719

Dan Fitzpatrick: at that, and say, Dan, of course it's going to 100 bucks.

22

00:04:01.790 --> 00:04:20.829

Dan Fitzpatrick: Do you think I'm blind? And the answer's no. And the reason I'm saying that is, when you look at this pattern like this, when you look at this price, you look at the way this stock's moving, it's got so much momentum, it's tracking right along the upper Bollinger Band, in fact, outside of

23

00:04:20.829 --> 00:04:24.319

Dan Fitzpatrick: the upper Bollinger Band, and this is on a weekly chart.

24

00:04:24.320 --> 00:04:36.090

Dan Fitzpatrick: Like, this is a monster move here, and I think it's just gonna continue to run here. So, this is definitely something that you want to be tracking. And also, if you look at Rigetti.

25

00:04:36.110 --> 00:04:51.569

Dan Fitzpatrick: Rigetti has just been on a major, major monster move. This was something that I did the other day, comparing 2 and 3 standard deviations, but we'll look at the... we'll look at the weekly chart. Let me get... yeah.

26

00:04:51.990 --> 00:05:16.950

Dan Fitzpatrick: Okay, I gotta say it. So, we got in this stock at a really favorable level, right here at 1460. So, we're up over 250% on this now. And the thing that I want to point out is this R, this R multiple. Yeah, we're up at 273, 273%. But what I want to talk about real quick is just this.

27

00:05:17.030 --> 00:05:22.690

Dan Fitzpatrick: Because we were able to put in, such a tight stop.

28

00:05:23.990 --> 00:05:42.760

Dan Fitzpatrick: Let me show you, yeah. So, because we were able to put in such a tight stop here, our R multiple, and I went into this in a little more detail, I'm not going to go into it now, our R multiple on this is now 63.5. And what this means is, for every dollar that we risked.

29

00:05:43.200 --> 00:06:08.000

Dan Fitzpatrick: we're making 63 bucks. What you really want is just trades that can at least get you, like, 3R. Here's a 2.8, \$2.80, so I risk a buck. So far, I'm getting \$2.80. Now, that's better than the old sharp stick in the eye, as they say, but I don't know who they are, and hopefully they're not, like, blind and

30

00:06:08.000 --> 00:06:09.430

Dan Fitzpatrick: one eye, but...

31

00:06:09.430 --> 00:06:33.900

Dan Fitzpatrick: The point is, we want to see these Rs get up here, really, really get up here in magnitude, and we've got a few, we've got a few that are. We've got 3 stocks here that are up above 100%, but with respect to what I'm talking about today, so IONQ, this has actually been kind of drifting sideways, look, compared to this, which is just going

32

00:06:33.900 --> 00:06:41.479

Dan Fitzpatrick: Straight up. This one, Quantum, has also been, just kind of drifting sideways for a bit.

33

00:06:44.260 --> 00:06:52.740

Dan Fitzpatrick: versus this, that's also been running higher. So all of these things, the worst of them are... is the worst of the bunch.

34

00:06:52.770 --> 00:07:00.810

Dan Fitzpatrick: are still doing okay. The best of the bunch are doing awesome. And so, as I look at IonQ,

35

00:07:00.810 --> 00:07:16.819

Dan Fitzpatrick: I think this is... it's only been kind of doing okay. Now it's close to doing awesome again. So this really has, at least in my view, about a 25% upside, and I don't think it's gonna take a long time.

36

00:07:16.820 --> 00:07:33.390

Dan Fitzpatrick: for it to get there. My sense is you're probably gonna see it up there, by the end of the month, if this breakout holds true, if it follows through on this tomorrow. And Rigetti, you know what? I stopped trying to...

37

00:07:33.610 --> 00:07:38.860

Dan Fitzpatrick: I stopped trying to figure out how high this is when this is gonna go. The...

38

00:07:39.710 --> 00:07:45.550

Dan Fitzpatrick: just higher. That's it. Like, hey, Dan, how high do you think this is gonna go? Well, Higher!

39

00:07:45.990 --> 00:08:05.470

Dan Fitzpatrick: That's all I got for you. Let's hope for 60 just before we get 65 and 70, but this has been the best trade that I've had on in our active trade list in quite some time. And so, I want you to be a part of this, our community. If you're not a member, please,

40

00:08:05.470 --> 00:08:12.490

Dan Fitzpatrick: It's 7 bucks for 14 days. Check it out. Typically, I forget exact... I think...

41

00:08:13.190 --> 00:08:37.999

Dan Fitzpatrick: If I recall correctly, because we... I just hired a data cruncher, and what Gail tells me is that if somebody signs up for a \$7 look, we've got about 90% that stick around, to be members. And that's something that I'm awfully proud of, because it's \$150, as opposed to \$70.

42

00:08:38.000 --> 00:08:49.120

Dan Fitzpatrick: Or \$7. And by the way, that is, I am going to be raising the prices for new members, not existing members, but for newer members, up to \$200.

43

00:08:49.740 --> 00:09:04.799

Dan Fitzpatrick: probably before the end of the year, and I'm not gonna really make a big fanfare about it, but that's gonna happen. We're way too cheap for the kind of money that people are making, and I even have existing members who are paying the lower price tell me.

44

00:09:04.820 --> 00:09:14.030

Dan Fitzpatrick: you really should be raising your prices, because you're way too low. So, anyway, I'm gonna be taking their advice pretty soon, sometime in the next month or two, so...

45

00:09:14.270 --> 00:09:19.259

Dan Fitzpatrick: Take advantage of it now. That's all I got for you. I will see you next time.
