

Chart of the Day
Here's the low down on Victoria Secret (\$VSXY)

October 27, 2026

Dan Fitzpatrick from StockMarketMentor.com analyzed Victoria's Secret stock, discussing a recent breakout that occurred after the stock moved within a trading range with below-average volume. He explained that the breakout represented a buy signal due to strong fundamentals and heavier than average volume, describing it as a "pinch and pop" volatility setup. Dan noted that while the stock pulled back slightly, this was acceptable as long as the move didn't completely reverse, suggesting a stop-loss around 91. He also promoted his series on "7 Deadly Trading Mistakes" and his recently published book available on Amazon for \$3.99, encouraging attendees to register for upcoming webinars and leave positive reviews if they found the content valuable.

Next Steps:

1. Dan: Teach the next session of the "7 Deadly Trading Mistakes" series on timing and emotional control this Thursday.
2. Dan: Teach the following session on risk and tracking trades next Monday.
3. Dan: Teach the final session on over-trading and trading with accountability the following Thursday.
4. Attendees: Register for the upcoming "7 Deadly Trading Mistakes" sessions via the registration link.
5. Attendees: Purchase the "7 Deadly Trading Mistakes" book on Amazon and provide a review if they find it helpful.

Transcript:

1

00:00:01.630 --> 00:00:08.699

Dan Fitzpatrick: Okay, hey guys, Dan Fitzpatrick here, StockMarketMentor.com, and I want to look at, Victoria's Secret.

2

00:00:08.770 --> 00:00:12.529

Dan Fitzpatrick: Not the gals on the runway, but the stock.

3

00:00:12.570 --> 00:00:21.380

Dan Fitzpatrick: And so, we put that... let me get rid of these, the drawings here for a sec. So, I looked at this stock.

4

00:00:21.380 --> 00:00:40.340

Dan Fitzpatrick: The other day, just yesterday, and I see this. I see this, this tightening here, and I went over this in our, strategy session. If you're a member, you know this. If you're not a member, you should be. And so, went over this, and what do we have? We've got...

5

00:00:40.370 --> 00:00:42.249

Dan Fitzpatrick: A pretty nice move.

6

00:00:47.830 --> 00:01:05.800

Dan Fitzpatrick: Within a trading range, volume was about, like, a little below average, and then we get a breakout here, and this was, in my mind, the buy signal here. Strong fundamentals, breakout above heavy, you know, heavier than average volume, so this is the time to buy, which is basically

7

00:01:05.960 --> 00:01:12.899

Dan Fitzpatrick: what we did. And the idea was, this was a volatility setup here. You can draw the green line.

8

00:01:12.900 --> 00:01:24.149

Dan Fitzpatrick: along the lows, and then there was really, like, a flat line or even a down line, the red line, the downsloping light on the highs. So this was really a pinch, what I call

9

00:01:24.150 --> 00:01:34.509

Dan Fitzpatrick: Well, not exactly that setup. For those of you that have been with me for a longer period of time, you've probably heard me talk about the pinch and pop.

10

00:01:34.510 --> 00:01:40.800

Dan Fitzpatrick: Otherwise known as the Clearasil pattern. This wasn't quite that, but still, we got a pretty good pop.

11

00:01:40.850 --> 00:01:50.150

Dan Fitzpatrick: out of a pinch here. But today, the stock traded down a little bit, so does that negate the move? No, not at all.

12

00:01:50.150 --> 00:02:10.100

Dan Fitzpatrick: I'm actually okay with this, while it would be nice if it was up at \$1,000 today. It's really okay to see a stock do this breakout, as long as the move doesn't completely reverse. But if this just pulls back like this on lighter volume than on the breakout day.

13

00:02:10.100 --> 00:02:13.150

Dan Fitzpatrick: It's not a great thing.

14

00:02:13.600 --> 00:02:20.870

Dan Fitzpatrick: But it's not really a bad thing either, but it does give you kind of a reference point, a frame of reference for where

15

00:02:21.030 --> 00:02:22.590

Dan Fitzpatrick: where the real...

16

00:02:22.750 --> 00:02:41.320

Dan Fitzpatrick: line of demarcation is. And so... and I would put that, like, right here, say, a little... right around 91, maybe. Wouldn't really put a stop much higher than that, because you have a good chance of getting stopped out. But if you're into this kind of stock.

17

00:02:42.060 --> 00:02:51.380

Dan Fitzpatrick: You just kind of put it right there. And if you get stopped out, don't just take it off your list and hate girls for the rest of your life. Instead.

18

00:02:51.700 --> 00:03:07.219

Dan Fitzpatrick: Excuse me. Just continue to watch the stock and look for a bigger move upward, because I think, ultimately, that's what we're gonna get, okay? Now, one thing I want to invite you... I'm dragging my browser over here.

19

00:03:07.340 --> 00:03:17.619

Dan Fitzpatrick: I want to invite you to see, my series, on 7 Deadly Trading Mistakes, which I am.

20

00:03:17.870 --> 00:03:42.359

Dan Fitzpatrick: Which I'm right in the middle of, actually. I taught the first one on strategy on Monday, that was yesterday, and then I'll teach another one on timing and emotional control on Thursday, and then next Monday, we're going to go into risk and tracking your trades, and then the last one is, we're going to talk about over-trading and trading with accountability. And these are Monday and Thursday.

21

00:03:42.380 --> 00:03:48.360

Dan Fitzpatrick: yesterday, Thursday, following Monday, following Thursday, and the, the...

22

00:03:48.370 --> 00:03:56.590

Dan Fitzpatrick: Prices are whopping free. I'm just putting these in in order to support my book, which just went on sale.

23

00:03:56.590 --> 00:04:14.759

Dan Fitzpatrick: And so what you can do here is, if you want to come to the one on Thursday, just click here, register, you can put in all your stuff here. Look at me, I'm already registered. Lucky day for me. So, anyway, that's what I'm, suggesting that you do. I'm inviting you to join me on that. Also.

24

00:04:15.530 --> 00:04:19.950

Dan Fitzpatrick: If you go to here, just then, you should see this on the top of our...

25

00:04:19.950 --> 00:04:44.050

Dan Fitzpatrick: of our webpage. You go to 7deadlytradingmistakes.com, you can buy it on Amazon, and if you do, please read it. I hope that you're getting something out of it. Hopefully you get a lot out of it, because I put a lot into it, and by the way, it started out just kind of as a lead generation book, you know, one of those things like, hey, you know, give me your email address, and I'll send you a worthless book.

26

00:04:44.050 --> 00:05:07.139

Dan Fitzpatrick: But then the more I looked at it, and I was working on it, it just became something other than that. And I think this is just a great book for people that are really having a hard time getting traction. Just getting your account on the right track and keeping it there, as opposed to going up and down a lot. So, I hope that you do this, get the book, it's super cheap.

27

00:05:07.140 --> 00:05:17.510

Dan Fitzpatrick: \$3.99 for Kindle, and the price, I think, is gonna go up in 2 weeks, it may be a month, but I want you to do it, and if you read it and you like it.

28

00:05:17.570 --> 00:05:22.489

Dan Fitzpatrick: Please give me a good review. Okay, that's all I got for y'all. I will see you next time.
